

**Rivendell Fairy Doors - Parent's Guide
Happy Hunting!**

*If you're not a Rivendell family, feel free to share this, but please be kind to our doors, thank you!

Rivendell School

In the tree outside the Music Room, on the north side of the building, up about 5 feet high.

Arapahoe Bend #1

From the east Horsetooth parking area, cross the bridge to the north, take the dirt footpath toward the cabin ruins, continue behind the cabin and down the hill to the river, follow that path past three huge trees that lean out over the river, at the third tree, look to the west (left). It's at the base of a big tree.

Arapahoe Bend #2

From the east Horsetooth parking area, walk toward the bridge, but don't cross. Continue east on the small dirt footpath toward the river. It will bend to the south and continue along the river and you'll come to a stump. Continue to the right but don't take the fork up to the meadow. It's at the base of a tree on the left (east) of the trail.

Prospect Ponds

From the parking area off Midpoint & Sharp Point Drive, head north on the paved path and curve right across the bridge. Take the small dirt footpath over the little hill and down by the river. Continue east till the path dead ends into some fallen trees. At the north (left) end of the fallen tree is a live tree and it's about 6 feet up the trunk.

Environmental Learning Center

From the parking area off east Drake, take the dirt path to the big bridge and cross it. Take the north (left) fork of the trail and continue till you come to the deck. Stand at the "hard rock life" sign and look across the dry riverbed. It's straight ahead and slightly left, in the leaning tree. It's facing eastish, about 5 feet up.

Red Fox Meadows

From the parking area off Taft Hill Rd, follow the dirt path to the big bridge and cross. Head north for a few yards and then take the smaller footpath into the trees on the right (you'll see a fire hydrant in the distance). Continue on that path until it begins to curve back to the south, it's about 5 feet up a tree, facing south (ish).

Indian Hills Park

This park is on east Stuart. There is a stand of trees in the middle of park. Once you're inside that, it's not hard to spot. It's low in a tree on the western perimeter, facing the inside of the grove.

Shields River Access

From the parking area on north Shields, cross over Shields, either under the bridge, or over the street. Take the switchback path that turns by the flood marker rocks, and continue another 100 yards or so to the small stand of trees near the river to the south. It is inside a group of tree trunks, facing west (ish) about 5 feet off the ground.
